

VIRTUAL COMPLIANCE MANAGER

COMPLIANCE MANAGEMENT SYSTEM

Beacon's Virtual Compliance Manager resolves pressing compliance challenges with automation, workflow, and a central repository. Transform the effectiveness and efficiency of your audit program today.

KEEP CURRENT ON COMPLIANCE REQUIREMENTS

- ✓ Stay current on changing requirements and deadlines with daily HPMS memo uploads including summaries, weekly bulletins, and Hot Topics
- ✓ Distribute regulatory updates with task assignments and automated task tracking to completion
- ✓ Maintain a centralized library of Policies and Procedures, assign tasks to update, and set review reminders for staff. Includes version history of P&Ps

IMPROVE AUDITING & MONITORING EFFICIENCY WITH AUTOMATION

- ✓ Automate audits and KPIs to oversee plan operations' compliance with regulations
- ✓ Save time with built-in Medicare rules and updates by Beacon Compliance SMEs
- ✓ Import operational data to identify areas of non-compliance and CMS Program Audit Universes for automated auditing and monitoring

MANAGE CORRECTIVE ACTION PLANS (CAPS)

- ✓ Keep current on non-compliance with structured tracking, assigned response timeframes, and automated reminders
- ✓ Report, trend, and reference active and closed CAPs maintained in structured format

GAIN DEEP INSIGHT WITH REPORTING AND TRENDING

- ✓ Identify patterns of non-compliance with reporting and trending
- ✓ Create Dashboards for key risk areas to focus monitoring
- ✓ Develop and schedule key reports to help facilitate oversight of key areas
